WORK EXPERIENCE

Senior Analytics Engineer (contract)

Atos (UK & I)

04/2022 - Present

Remote

Achievements/Tasks

- Maintaining the Looker instance.
- Implementing the dbt across the whole infrastructure.

Business Intelligence Consultant

BI:PROCSI

10/2020 - 04/2022

remote

Achievements/Tasks

- Assisted with the Looker instance roll-out and onboarded 250 users with Looker training.
- Migrated Salesforce database to Snowflake for the biggest NGOs in 3 weeks using Matillion.
- Lead the data migration project using Matillion, dbt, Snowflake, and BitBucket.

Business Intelligence Analyst

Pollen (formerly Verve)

04/2018 - 10/2020

London, United Kingdom

Achievements/Tasks

- Successfully implemented 3 Looker instances, using Snowflake and dbt with 5 core dashboards delivery.
- Maintained and created LookML files in order to build dashboards in Looker for internal and external clients.
- Created and successfully implemented the classification algorithm to predict the class of applicants.

CEO/Owner

CDB Promo

12/2004 - 12/2010

Gdansk, Poland

Achievements/Tasks

- Conducted Data Analysis and predictions for business plans and feasibility studies (Cash Flows, P/Ls, BSs, etc.).
- Created 25 and executed 10 companies' business plans and sourced 16 projects finance rounds.

EDUCATION

Data Engineering Nanodegree

Udacity

02/2020 - 10/2020

Courses

- Cloud Warehouses, Data Lakes w/ Spark, Airflow.

PgCert Data Science

City, University of London

10/2017 - 09/2018

London, United Kingdom

Courses

- Principles of Data Science, Machine Learning, VA.
- Neural Networks, Big Data, Computer Vision.

SOFT SKILLS

Business acumen

Problem solving

Data Analysis

Teamwork

Machine Learning

TECHNICAL SKILLS

SQL - Advanced (04/2018 - Present)

- CTEs, queries optimisation, statistical calculations

Python - Intermediate (04/2017 - Present)

- Pandas, NumPy, Matplotlib, Shap, SciKit-learn, Keras, nltk

R - Intermediate (11/2017 - Present)

MatLab - Intermediate (08/2017 - 04/2018)

- Data wrangling, Decision Trees, Naive Bayes, visualizations

Shell, Git, LookML, Heroku, Salesforce (01/2018)

Looker API (10/2019 - Present)

- Users, Content, and Permissions Management via Looker API

SnowPRO Certification (12/2021 - Present)

LookML Developer certification (01/2021 - Present)

PROJECTS

katuro.net

The idea invention, product, UX and UI design and execution using React, Snowflake, dbt, GraphQL API, and Python. Cloud deployment on DigitalOcean with Cloudflare

'Initial data analysis on World Bank's socio-economic indicators 1972 - 2007 using R and Python'

Principles of Data Science project using Python, Pandas and Numpy

'Investigation of the European Union inhabitants migration over the years 1990 - 2015'

Visual Analytics project using R and Tableau

'A Naïve Bayes and Decision Tree classification models comparison tested on bank marketing dataset'

Machine learning project using MatLab
